SUNRICHER

Without End Cap (Built-in)
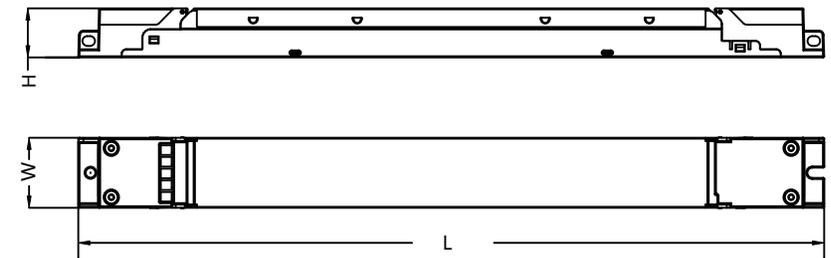

With End Cap(Independent)

With End Cap (30/40W):
11.13" x 1.18" x 0.83" (282.6 x 30 x 21)

With End Cap (50/60W):
12.7" x 1.18" x 0.83" (322.6 x 30 x 21)

With End Cap (80W):
15.46" x1.18" x0.83" (392.6 x 30 x 21)

DALI System (D4i Version)

Note: Available with 4-Wire CCT LED luminaries as well.

CCT LED

No Extra Power Supply

Driver provides internal Power supply to the sensor.
No auxiliary power required.

Compatible with Lutron

Driver working smoothly with Lutron Athena Node.

Emergency Support

Discharge completely within 4 seconds of power being removed
from the fixture (Both when the fixture is on and off).

Bi-directional

Free to use the mobile application to check the power consumption.
