Casambi Wireless Fixture Mounted DALI Controller

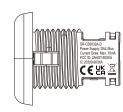

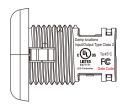

Important: Read All Instructions Prior to Installation

Function introduction

Product Description

The fixture-Integrated DALI controller combines DALI dimming and Casambi radio technology into a small package that fits into various luminaires. When used with DALI LED drivers, it enables any lighting manufacturer to deliver wirelessly-controllable and DALI-enabled fixtures with minimal engineering effort. The DALI-enabled luminaires just need to be connected to mains power. The result is increased occupant comfort and significant energy savings that meet the most demanding building energy codes.

Casambi Technology Explained

The Casambi technology provides a mesh network where all the intelligence of the system is replicated in every node and, in such a way, creates a system with no single point of failure. In this kind of fully distributed architecture, any unit can go offline and catch up from others when they return back online.

Wireless Features

- Control a large number of fixtures from any point
- · Simple to use UI
- Wide range of functionality Grouping Luminaires, different lighting situations for different occasions, colour temperature, and much more.
